"DOLPHIN TALE 2"

The "Dolphin Tale 2" movie opened in theaters September 12.

This movie is about two bottlenose dolphins.

These dolphins are named Winter and Hope.

They live at Clearwater Marine Aquarium in Clearwater, Florida.
“Dolphin Tale 2” is the second “Dolphin Tale” movie.

The first movie was in theaters in 2011.

That movie told the story of Winter.

She hurt her tail and could not swim well.

Doctors made her a prosthetic tail.
Winter has a new problem in “Dolphin Tale 2.”

Winter lives alone at the Aquarium.

Bottlenose dolphins do not like to live alone.

Winter needs a dolphin friend.

The Aquarium must find a friend for Winter.
Bottlenose dolphins live in groups in the ocean.

A group of dolphins is a "pod."

Together, they play, travel and look for food.

Dolphins eat fish and squid.
Bottlenose dolphins are gray mammals.

These dolphins can be 6 – 13 feet long.

Dolphins talk to each other.

They talk with squeaks, whistles, clicks, and squeals.*
